BRAINERD CHAUTAUQUA JUNE 28 TO JULY 2

WEALTH OF MUSIC, NATIONAL SPEAKERS AND ENTERTAINERS

IN MANY WAYS PROGRAM WILL
BE ONE OF BEST EVER PRE-
SENTED HERE

ALL PERFORMANCES ARE TO BE
HELD AT THE NEW PARK
THEATRE OF BRAINERD

Brainerd's Independent Chautau-
qua season opens June 28 and ex-
tends to and including July 2.

For months there has been a com-
bined effort on the part of the offi-
cers, directors and committeemen in-
terested in the coming Chautauqua
to secure a program more varied,
more interesting and better than
ever before assembled. It is believed
that this ambition has been ac-
complished.

A wealth of music, rich in variety
and versatile in character; speakers
with national and international re-
putations, specialists in the subjects
presented; entertainers of the high-
est quality, combine to make the
program so appealing to the general
public that the enthusiasm ought to
be greater than ever before.

Under the direction of S. R. Adair,
chairman of the ticket committee, a
ticket selling campaign will be in-
augurated. It pays to buy the sea-
son tickets for adults and children.
If single admissions are bought for
the season, they will cost over three
times what the season ticket is sold
for. Single tickets for evening per-
formances will not be sold until
7:30 o'clock of a show night.

Here is the daily program:

MONDAY, JUNE 28

qua Association are President W. H.
Gemmell, Vice President W. E. Hay-
don, Secretary Miss Juel O'Brien and
Treasurer A. S. Peterson.

LINDSTROM BANK PAYS DIVIDEND

St. Paul, June 5.—(UP)—A sec-
ond dividend to depositors in the
First State Bank of Lindstrom, which
was closed March 18, 1924, was paid
today. It was of 20 per cent and
amounted to \$29,485.54.

Depositors of the State Bank of
Becker, which was closed July 7,
1925, received a first dividend of
ten per cent, amounting to \$21-
256.20.

WARRANT FOR MANSLAUGHTER AGAINST AVIATOR

Barren, Wis., June 5.—(UP)—A
warrant charging manslaughter
has been issued against Fred
Hinek of Minneapolis, an aviator
and in charge of the plane in
which Curtis Borgan was fatally
burned at Rice Lake, May 16.

Curtis and Harley Borgan,
brothers, were seated in the plane
held down by straps as they
awaited a trip and Hinek is al-
leged to have poured gasoline into
the tank of the craft while the
engine was running. The result-
ing explosion killed Curtis and se-
verely injured his brother.

THAWS SEEM TO HAVE BURIED THE HATCHET

HARRY K. THAW AND EVELYN
NESBITT ARE FRIENDS
AGAIN

WITH THEM IS THEIR YOUNG
SON, RUSSELL
THAW

Atlantic City, N. J., June 5.—(UP)—
The Thaws appear to have buried
the hatchet.

Harry K. Thaw, slayer of Stanford
White, and Evelyn Nesbitt, the wife
over whom he killed White, appear-
ed to have resumed the role of friends
again today after almost 20 years.
With them was their young son,
Russell Thaw, whose paternity Thaw
questioned when he and Evelyn were
divorced.

Both refused today to discuss
whether they had effected a com-
plete reconciliation or had simply
decided to end the state of "armed
neutrality" which had kept them
apart.

Atlantic City was astonished last
night when Thaw, Evelyn and Rus-
sell, with a lawyer, appeared at a
big hotel and dined together, like
friends after a long separation.
The purpose of the meeting, both
Evelyn and Thaw declared, was to
frame a strong denial of a Chicago
story that a boy named Russell Thaw
had entertained female companions
in a lavish fashion and neglected to
pay his hotel bill.

"There have been many troubles,
but this is too cruel for my son has
never been in Chicago except when
he was with me," was the text of a
signed statement given out by Evelyn
Thaw after the dinner.

The statement added that the Chi-
cago hotel had "uttered a reckless
falsehood" and that Evelyn Thaw in-
tended to sue the hotel for damages.

Fully two hundred persons were
at dinner in the hotel here when the
couple entered. Thaw solicitously
led Evelyn by the arm, and a buzz
of excited talk began throughout the
room as they were recognized.
Throughout the meal Harry showed
Evelyn marked attention. Their con-
versation was long and earnest.

Evelyn seemed elated over the eve-
ning and very reluctant to say any-
thing about a reconciliation.

After dinner the couple taxied to
a telephone office to send messages
denying the Chicago story and later,
after a walk on the board walk,
spent the evening at a local cafe to-
gether.

"We are very friendly," Thaw
said.

Asked if his visit to Evelyn in
Russell's behalf indicated that he
was prepared to acknowledge the
boy as his son, he replied:
"You know that is not true."

LATE SPRING MAKES CROP OUTLOOK UNCERTAIN

Washington, June 5.—(UP)—The
late spring has made the outlook for
most principal crops uncertain with
the exception of winter wheat which
will yield a bumper crop of 150-
000,000 bushels greater than last
year, the agriculture department an-
nounces.

The wheat crop which will be har-
vested in the next six weeks will be
about 549,000,000 bushels it is
thought.

Meadows and farm pastures are
generally backward. Corn and cot-
ton crops are finally in the ground,
the corn having generally good
stands in the central states.

ENCOURAGING CROP CONDITIONS IN THE STATE

INDICATED IN WEEKLY REPORT
OF PAUL H.
KIRK

THE MINNESOTA AGRICULTURAL
STATISTICIAN IS OP-
TIMISTIC

St. Paul, June 5.—(UP)—En-
couraging crop conditions through-
out the state were indicated today
in the weekly report of Paul H.
Kirk, Minnesota agricultural sta-
tistician, which referred to an improve-
ment generally.

The report follows:
"Crop conditions have greatly im-
proved since the rains of May 28 to
30, which were quite general. How-
ever, hay, rye and pastures except in
the southeastern part of the state,
are still below the average.

"Spring seeded grains will make
rapid progress and it is hoped they
will overcome to a great degree the
serious setback previous to the bene-
ficial rains.

"Corn, flax and potato planting is
about completed in most sections of
the state. Early planted corn is be-
ing cultivated and shows fair stand.

"Winter wheat, largely grown in
the southeastern part of the state,
shows a better condition than rye,
which is grown more generally
throughout the state.

"Pastures should now furnish
enough pasturage so that feeding of
dry feed can be discontinued.

"Livestock generally are in good
condition."

U. C. T. IN A PROCESSION OF NEARLY 3,000

GRAND ENTERTAINMENT PRO-
VIDED BY CITY OF
WINNIPEG

GUESTS OF CITY AT LUNCHEON,
FOLLOWED BY BALL
GAME

Winnipeg, Man., June 5.—A grand
procession of nearly 3,000 delegates
and visitors to the Grand Council
sessions of the order of United Com-
mercial Travelers of America, which
closed at the Royal Alexandra hotel
yesterday afternoon, will wind its
way with blare of trumpets and beat-
ing of drums through the streets of
Winnipeg this morning out to Assini-
boine Park, there to be the guests of
the city at luncheon, followed by a
ball game between Canadian and
United States delegates.

The closing feature of the Grand
Council session yesterday was the
joint ceremony of installing the new
officers. This was done by Fred J.
Cox, supreme past counselor and
senior officer in attendance at the
convention, assisted by Supreme
Council Delegate W. D. Mowry, Kan-
sas City. The ladies' auxiliary will
hold its closing session this morning
when the slate of officers will be
completed.

Following is the list of officers
elected for the Grand Council of
Minnesota and North Dakota:

Grand Counsellor A. R. Wolf, Al-
bert Lea, Minn.; Grand Junior Coun-
sellor J. J. Daly, Grand Forks; Grand
Past Counsellor E. F. Yates, Minne-
apolis; Grand Secretary, J. M. Dres-
ser, St. Paul; Grand Treasurer H. B.
Hughes, Fargo, N. D.; Grand Con-
ductor H. B. Triem, Pipestone, Minn.;
Grange Page C. Storholm, Thief Riv-
er Falls, Minn.; Grand Sentinel A.
Anderson, Minot, N. D.; Grand Ex-
ecutives R. A. Glashan, Stillwater,
and H. B. Stevens, Crookston.

POLICE SAY THEY HAVE ARRESTED BOMB PLOTTERS

Montevideo, Uruguay, June 5.—
(UP)—The police announced today
that they had arrested all persons
responsible for the bombing of the
American legation here. Four per-
sons are held.

In raiding on the homes of two of
the four persons detained, the police
found materials for making bombs
and also books on infernal machines.

DIED FROM HIS INJURIES IN A DOUGH MIXER

Mankato, Minn., June 5.—(UP)—
Leonard Jones, 19, baker, died
here today from injuries sustained
by a dough mixer.

Jones was caught in the whirl-
ing mixer and was thrashed about
for several minutes before the ma-
chine could be stopped. Both
arms and both legs were broken
and the body terribly mangled.
The youth died soon after he was
rushed to a hospital.

SENSATIONAL WRIGHT DOMESTIC DRAMA CLOSING

MIRIAM NOEL WRIGHT ASTOUND-
ED NATIVES WITH HER
ACTIONS

MADE DESPERATE EFFORT TO
FORCE ENTRY TO LOVE
BUNGALOW

By CLARENCE ENGELBRETH
(United Press Staff Correspondent)

Taliesen, Spring Green, Wis., June
5.—Fairer skies drifted today over
beautiful Taliesen, country home of
Frank Lloyd Wright, as the last
chapter of the sensational Wright
domestic tangle was coming to an
end.

Miriam Noel Wright, wife of the
noted architect, who Thursday as-
tounded the natives of Spring Green
with her frantic attempts to force
entry to the love bungalow, in a de-
perate effort to regain her former
status as mistress of Wright's feudal
castle, is recuperating at a local hos-
pital preparatory to returning to
Madison.

In Madison she has indicated she
will commence court action for a
writ of entry to Taliesen. Wright
will contest the action.

Should Miriam be successful in ob-
taining the writ of entry she will
immediately commence suit for sepa-
rate maintenance. Wright has in-
dicated he has given up all hope for
a complete divorce and that he will
not contest Mrs. Wright's suit for
separate maintenance from bed and
board. However, Wright has stated
Taliesen is not Miriam's home and
never will be.

"Mme. Noel," he told the United
Press, "is here by advice of counsel
to force her way into the house she
has outraged and tried to destroy.

"She has created a false role for
herself as a bid for popular favor.
I, however, am unmoved by the ap-
parent pathos of her situation and
am unable to forget that she volun-
tarily deserted what she now calls
home two years ago, long before
there was any question of another
woman, and that in the last few
months she has consistently scorned
my efforts of financial assistance.

"Knowing her to be practically
penniless at the present time as far
as ready cash goes, although she has
in her possession a collection of art
treasures I have given her worth at
least \$25,000, I have deposited with
the district attorney (N. S. Board-
man, Dodgeville) a sum sufficient to
care for her present needs.

"She is, therefore, not destitute. I
stand ready to support her, if she
will give me the opportunity, but I
am firm in my conviction that there
is no place for her here where her
real contribution has been only con-
structive sabotage for 10 years.

"This is not her home and never
will be."

District Attorney Boardman, Iowa
county, said Wright had deposited
with him a check for \$125, first
month's payment in a temporary set-
tlement. Mrs. Wright will probably
go to Madison to live while suit for
a writ of entry is carried out and
her suit for separate maintenance
begun.

DYNAMITE IS USED TO SMASH NORTHERN STILL

Roscoe, Minn., June 4.—(UP)—
Dynamite was used by eight fed-
eral prohibition agents to destroy
an \$8,000 still found in a raid near
Wells Lake. Frank and Ben
Haugeman, owners of the prop-
erty, and two others were arrested.

POLAND EDICT PROCLAIMS A STATE OF SIEGE

POSEN AND POMERELAN ARE SO
SINGLED OUT
TODAY

CLAIM THAT GERMAN CHAUVEN-
ISTS ARE PLOTTING A
COUP

Warsaw, June 5.—(UP)—The Pol-
ish government today proclaimed a
state of siege throughout Posen and
Pomerelen.

The newspaper Kurjer Warsaw-
ski published an interview with Act-
ing Premier Bartel in which he is
quoted as saying:

"The proclamation was issued in
compliance with the demand of Gov-
ernor Wachowiak of Posen, who is
advised that German chauvinists in
Posen and Pomerelen are plotting a
coup against the Polish state."

From the start of the Pilsudski re-
volt, which ousted the Witos cabinet
and resulted in a new government,
Posen has been the center for coun-
ter revolutionary activity.

While street fighting was under-
way in Warsaw before Pilsudski's
victory, supporters of the Witos re-
gime rallied at Posen. At one time
dispatches said 10,000 anti-revolu-
tionists were mobilized there and
were preparing to march on Warsaw
to battle the Pilsudski forces.

The plan did not materialize, how-
ever, and recently no anti-Pilsudski
activity has been reported from Pos-
en.

MAYOR WEBB INCURS WRATH OF UNION MEN

MAKES SENSATIONAL SPEECH,
ATTACKING ONE BIG UNION
MEN AS REDS

LABOR PEOPLE CLAIM HE IS IN-
CITING PEOPLE TO
RIOT

Winnipeg, Man., June 5.—(UP)—
The arrest of Mayor Ralph Webb of
Winnipeg is sought by One Big Union
leaders as the result of a sensa-
tional speech made by the mayor this
week in which he attacked the union
men as reds and suggested that if
they could not be got rid of any other
way they should be dumped into the
river.

The labor men retaliated by wait-
ing on the attorney general and ask-
ing that the mayor be restrained
from advocating such methods. They
claimed that he was violating the
law by inciting the people to riot.

The attorney general has so far
taken no action against the mayor
and a charge of criminal libel against
Webb is being considered by the O.
B. U. They may also ask the chief
of police to try and curb the mayor.

PLEAD NOT GUILTY TO BEATING NEPHEW

Hastings, Minn., June 5.—(UP)—
Pleas of not guilty to fogging their
eight-year old nephew and caus-
ing his death were entered in the
Dakota district court today by
Mr. and Mrs. Anthony Lucking.

Attorneys for the Luckings entered
a demurrer to the grand jury in-
dictment and Judge W. A. Shultz
instructed counsel for both sides to
submit written arguments. He said
he would submit his decision on the
demurrer within a week.

The Luckings were indicted for
second degree murder following the
death of their nephew, Arthur Man-
ner, an orphan, whom Lucking was
alleged to have beaten with a tire
so severely that the boy died the
following day—Monday, May 17.
Lucking has denied using a tire.

ERADICATE FOOT AND MOUTH DISEASE

Washington, June 5.—(UP)—Foot
and mouth disease among livestock
have been completely eradicated in
the United States and effective June
10 all domestic quarantines on foot
and mouth diseases will be lifted.
Secretary of Agriculture Jardine an-
nounced today.

WIDOW SHOT BY JEALOUS SUITOR IN EAU CLAIRE

Eau Claire, Wis., June 5.—(UP)—
Mrs. Bertha McFadden, 46, a
widow, is in a serious condition
here today from bullet wounds.
George A. Vest, 48, a roomer, said
to have been a suitor, is under
arrest, charged with having shot
her in a fit of jealousy.

Vest was overpowered after the
shooting by George McFadden, son
of the widow, and placed under
observation at the county jail.
Police fear he is insane.

Mrs. McFadden is unconscious
as the result of her injuries and
police lack details of the affair.

CLAIM FAILURE TO RECOGNIZE THE PROHIBITION LAWS

CONTRIBUTING CAUSE MAKING
CHICAGO CRIME CAPITAL
OF WORLD

SPECIAL GRAND JURY AT CHICA-
GO BRINGS IN RE-
PORT

Chicago, June 5.—(UP)—The
public of Chicago through its fail-
ure to recognize the prohibition laws
is largely responsible for making
Chicago the crime capital of the na-
tion, according to the report of the
special grand jury which has delib-
erated five weeks on crime condi-
tions and their causes. Although
certain state officials are denounced
for their "vicious administration" of
the pardon and parole laws, the ju-
rors insisted that the public was
chiefly responsible.

"It cannot be denied that there
has been a lack of acceptance by the
public of the Volstead act," the re-
port asserted. "A large number of
persons in the community have not
accepted the statute as the law of
the land and are willing to pay and
do pay exorbitant prices for intoxi-
cating liquors, which create a field
of activity and profit unheard of in
former times.

"This traffic, being criminal and
without legal foundation, brings
about," the report stated, "the bitter
wars between rival bootlegger gangs
and the murders that climax them."

The grand jury report demanded
that Governor Small dismiss Chaun-
cey H. Jenkins, superintendent of
the state department of public wel-
fare, and Will Colvin, director of the
pardon and parole board. And, ac-
cording to an announcement by At-
torney General Oscar Carlstrom,
Governor Small already has promised
to remove Colvin from office within
30 days.

The grand jury was summoned by
State's Attorney Crowe when one of
his most brilliant assistants, William
McSwiggin, was murdered in the
midst of a beer war. The jurors re-
ported they were unable to solve
McSwiggin's murder, but asserted
that in their belief the young state's
attorney had been an innocent by-
stander and was in no way involved
in the beer traffic.

GOV. CHRISTIANSON AT COMMENCEMENT PROGRAM, ST. PETER

St. Peter, Minn., June 5.—(UP)—
Governor Theodore Christianson was
the speaker at commencement exer-
cises of Gustavus Adolphus College
here, when 73 seniors received de-
grees of bachelor of arts. Demo-
cracy, the governor said, depends on
intelligent voting public.

Degrees of doctor of divinity were
conferred on Rev. Carl Solomonson
of Rockford, Ill., and Professor S. J.
Siddius of Augustana college and
Theological Seminary at Rockford,
Ill.

FIND SHORTAGE IN COUNTRY BANK

Callaway, Neb., June 5.—(UP)—
Shortage of approximately \$10,000 in
the Seven Valleys State bank here, to-
gether with the disappearance of
Thomas W. Norberry, its president
and treasurer, and a woman beauty
parlor operator with whom he was
known to be friendly, was reported
here today following an investigation
by George Wilson, state bank exam-
iner.

6 LEADERS IN APPEAL TO IOWA VOTERS

PROCLAMATION STATED BROOK-
HART WAS ILLEGALLY DE-
PRIVED OF SEAT

IN RECENT CONTEST WHEN HE
WAS OUSTED BY STECK,
DEMOCRAT

By PAUL R. MALLON
(United Press Staff Correspondent)

Washington, June 5.—Six leaders
of the senate farm bloc today issued
an appeal to the voters of Iowa to
support Smith W. Brookhart, Iowa
insurgent, in Monday's republican
senatorial primaries there.

The proclamation stated Brook-
hart had been illegally deprived of
his senate seat in the recent contest
when the senate voted to seat Daniel
F. Steck, democrat.

It was signed by Senators Norris,
republican, Nebraska; Frazier, inde-
pendent, North Dakota; Howell, re-
publican, Nebraska; LaFollette, re-
publican, Wisconsin; Nye, republi-
can, North Dakota, and Shipstead,
farmer-labor, Minnesota.

The proclamation read in part:
"The eyes of the nation are upon
the primary election to be held in
Iowa on Monday, June 7.

"The undersigned desire to call
the attention of the people of Iowa
to the fact that wholly apart from
the results in the state vote of which
the people are the best judge, the
result of the primary Monday will
have an enormous influence upon
the determination of certain great
public questions now hanging in the
balance at Washington.

"Above all the primary will be
regarded as a test of the assumed
right of the United States senate to
override the statutes of a sovereign
state and to expel from the senate a
member duly elected under the laws
of his state, by a majority of the bal-
lots legally cast in an election."

SPECIAL DELIVERY LETTER WARNS OF TRAGEDY

Lansdale, Pa., June 5.—(UP)—
Receipts of a special delivery letter
warning that something tragic had
transpired, led police to the home of
Robert Norton Hill here today and
revealed his attempt to wipe out the
entire family.

Hill was found dead in the base-
ment with a bullet wound in his
head and his wrists cut. An auto-
matic pistol lay near the body.

A 20-year old son Paul was found
dead in bed. His head had been
battered with a hammer and a bullet
fired into his brain.

Mrs. Lillian Hill was found un-
conscious in her bedroom with her
head battered by a blunt instrument.
She was taken to a hospital where
physicians feared she would die.

Despondency over the illness of his
wife and son lead police to believe
Hill attempted to kill them both and
then committed suicide. Hill was
an insurance man.

ANOTHER PRISON TERM FOLLOWS POOR BANKING

Wabasha, Minn., June 5.—(UP)—
Another prison term has resulted
from the tangled affairs of the Plain-
view State bank. Adolph Stoltz,
former assistant cashier, has been
fined \$500 with the alternative of
six months in the county jail. He
was accused of accepting deposits in
a bank known to be insolvent.

E. L. Sylvester, president of the
defunct bank, and Arthur Kennedy,
assistant cashier, are serving terms
in the Stillwater penitentiary as a
result of the failure.

PAUL LEHMAN KILLED IN AN AUTO ACCIDENT

New Ulm, Minn., June 5.—(UP)—
Death of Paul Lehman, auditor of the
Eagle Roller Mill company, in an
automobile accident at Pierre, S. D.,
was reported in a message to relatives
here. Lehman was touring the north-
west, inspecting the company's eleva-
tors in company with other officials.
The message said a tire blowout
threw the automobile from the road,

FRUSTRATE DIAMOND ROBBERY IN MILL CITY

Minneapolis, June 5.—(UP)—A diamond robbery on the seventh floor of a Minneapolis office building was frustrated today by a mob of tenants, who captured two of three bandits.

The third escaped, but in pushing his way through the irate captors of his companions, dropped two bags containing \$10,000 in gems.

The bandits entered the office of Jacob W. Evidson, beat him to the floor and grabbed the two bags, but were met at the exit by tenants, who had heard the commotion. The crowd followed the men down to the first floor, where two were caught.

Borah Resolution Asks Panama Situation Investigated

Washington, June 5.—(UP)—The senate today adopted the Borah resolution directing the state and war departments to investigate and report to the senate on concessions acquired by British interests in the Republic of Panama.

The resolution was passed without discussion and without a record vote.

The concessions allegedly are intended to thwart any great American rubber plant developments in Panama which might interfere with Britain's world rubber monopoly.

The investigation would determine if the concessions violated the Monroe doctrine.

FEDERAL AID FOR HIGHWAYS

Washington, June 5.—(UP)—The road bill appropriating \$165,000,000 for federal aid to state highway building in the next two years was blocked in the senate today when Senator Bingham, republican, Connecticut, objected to continuing consideration of it under a consent agreement. It was referred to the calendar to wait its regular turn, following Bingham's speech attacking it as a paternalistic activity and in violation of state's rights.

Wheeling, W. Va., June 5.—(UP)—Disgruntled because he was discharged as an employee of the Salvation Army, Walter McCormick, 33, of Fairmont, W. Va., has confessed, according to police, to killing one of his superiors and wounding another.

Captain Eugene Riley, 49, was killed, and Captain William MacGregor, 45, wounded in the abdomen.

A first degree murder charge has been lodged against him.

If "Betty" is finally chosen to represent Delaware she will be given a week's trip to the Exposition and to Washington and the White House, where she will receive a medal from the hands of President Coolidge.

Waltz King's Record

Strauss, the waltz king, is said to have written nearly 400 waltzes and that there was not a poor one among them. In addition he wrote many selections for other dance steps, including polkas, mazurkas and schottisches, not to mention marches and ballads. His operettas were next in fame to his waltzes.

WHAT'S SMART IN MEN'S WEAR

Summer, the period of color in clothes, demands extreme care in choosing

SUMMER is the season of colorful clothes for men. Blazers, jackets, trousers, shirts, neckwear, all give opportunity for a man to display his individuality.

They also provide an opportunity for some very inharmonious blending of colors, if one is not careful. Contrasting colors are especially dangerous, unless they are very well handled. Harmonizing colors—blends of different shades of the same color or adjoining colors on the spectrum—are less likely to produce clashes which offend the eye.

The blazer of blue, and the tan gabardine sport coat are much worn with striped flannel trousers, according to style observers for Hart Schaffner & Marx.

Shirts with laundered collars to match, other than plain, pastel-shaded fabrics or neat, thin stripes on white grounds, have gone out of style with better dressed men. The stripes on laundered collars to match shirts are either pin stripes, set close together on a white ground, or chalk stripes, set from one-half to one inch apart. Stripes of two or more different colors on a white ground are in poor taste.

A man who has the instinct of taste in his dress, does not wear striped neckwear with striped shirts or collars. He wears figured or plain colored neckwear.

Again, if his suit contains a prominent figured effect, as in many of our increasingly popular Ombre check, he reduces any pattern in neckwear, collar and shirt to the minimum.

In straw hats the Panama is coming into its own this year. Leghorns and other soft straws in white or natural shades are popular, though of course the old reliable "sailor" is still being very generally worn.

FASHIONS

By HEDDA HOYT

New York, June 5.—(UP)—This is the season for placing furs in storage. The long cold Spring has played havoc with Winter garments and it is especially important this year that furs be cleaned and repaired before storing them away for Summer months.

Don't place too small a value upon your furs when storing them in storage vaults. Many women do this to minimize the storage costs. Remember that the value you place on your furs is the amount you have returned to you in case of fire or damage. Any fur worth keeping is well worth placing a proper valuation upon.

Not many years ago one of the largest fur storage vaults in the United States was destroyed by fire. At that time women complained that they could claim no more than the value they had placed upon their furs. Since then, most storage places try to set their own valuation on furs stored with them. It is women themselves who under-value their furs to save storage costs.

August and September are the best months in which to have furs remodeled since styles are established by that time and workmanship is less costly than later on in the rush season.

For those who store their furs at home we suggest that each garment be thoroughly brushed and hung out in the open for several days before packing for Summer. Many women use quantities of moth balls and tie each garment in newspapers before placing in a cedar-lined box. Those who object to the odor of mothballs will prefer to place each garment in a cedar bag sprinkled heavily with powdered cedar and place this in a tightly closed box. During the Summer it is well to open the box and hang the furs in the sun for a day or so, as an additional insurance against moths.

Famous English Oak

Bill of Rights

The bill of rights in England is the name commonly given to the act declaring the rights and liberties of the subjects and settling the succession of the crown, 1689, which embodied the declaration of rights drawn up by a committee of the commons and presented to William Prince of Orange and his wife, afterward William III and Queen Mary. The bill of rights is the nearest approach to a written constitution which the United Kingdom possesses.

Mark Twain Teaches By Causing Laughter

"Learn while you laugh, and laugh while you learn."

This might have been the motto that Mark Twain kept on his deskpad while he wrote "A Connecticut Yankee in King Arthur's Court," which, in film form, is showing at the Lyceum theatre Sunday and Monday.

But Mark Twain had no such idea. "A Connecticut Yankee" was not meant to be instructive. It was meant to throw ridicule upon the idea that the Middle Ages were a better time than the present. But it teaches in spite of itself. The adventures of young Martin Cadenish among King Arthur's knights and ladies tell, better than all the history books, just what life in the Middle Ages was like—without plumbing, without telephone, without good roads.

"A Connecticut Yankee" is the modern Don Quixote.

Fred Thomson at Lyceum Tonight

"Hands Across the Border," one of the most spectacular of all Fred Thomson's western romances, comes to the Lyceum theatre tonight only. Frank M. Clifton wrote the story, a rattling tale of smuggling along the Mexican line, and the amusing difficulties into which a young American can become immersed when he starts promiscuously to rescue young Spanish ladies from girl's boarding schools. Along with the chuckles that sprinkle the picture with the usual Thomson prodigality there is an unexampled number of thrills, in most of which Silver King plays a big part. That horse takes the palm as the best actor in Hollywood!

Deep Rose Flowers Are Winsome in Blue Crepe

A dainty motion picture actress posed for this picture. She wears a simple frock of flat blue crepe printed with deep rose flowers. The collar and cuffs are of white crepe de chine and the dress is trimmed with grosgrain ribbon.

Coat Frock Survives

Longer Than Others

No model has survived a longer period of popularity without in any way sacrificing the essential quality of chic than the dress modeled on the lines of a coat. Its adaptability to materials widely different in character has had much to do with its success.

Fashioned of woolen or heavy silk fabrics, it appears among the smartest street costumes; carried out in crepes, both plain or printed, it has its place in afternoon modes; developed in chiffons, georgettes and metal brocades, or even lace, it is singularly appropriate for evening wear.

For the more mature woman a frock on these lines is an ideal choice. It gives the slim effect so much to be desired and there is no break at the waistline to cut the figure in two.

Shirtings play a part of distinct importance in the fashions of spring and often supply the only note of decoration.

Established the Ounce

The ounce, the twelfth part of a pound troy and the sixteenth part of a pound avoirdupois was precisely fixed in England by Henry III, who decreed that an English ounce should be equal to the weight of 480 dry grains of wheat. The edict was published in the year 1233.

SATURDAY, JUNE 5, 1926

MIDWEST MOTORIST STORY OF BRAINERD

THE Midwest Motorist, published at Kansas City, Mo., in its May issue gives prominence to Brainerd. Its editor, A. M. Chalmers, visited Brainerd and recorded her impressions of town and lakes. There are also articles on Woman Lake, the Moose Trail Fox Farm, Minnesota Fishing Laws, etc. The pictures carried are beautiful ones, breathing the spirit of lakes and woods. Advertisements of various resorts in the Brainerd territory are plentiful. Everywhere is emphasized the importance of Brainerd's strategic position, the gateway to the 10,000 lakes.

In her story on "Brainerd, the Gateway to the 10,000 Lakes," Mrs. Chalmers states that when she was a wee, small child, Brainerd, Minnesota, meant blueberries and Pelican Lake!

"In my childish imagination I could see myriads of blueberry bushes and hundreds of big, awkward pelicans walking on a sandy shore. My fancy always pictured agates, many of them, studding a white velvety beach. Every year I felt a wicked envy when our cousins were packed off to the north woods and a gorgeous anticipation when the 'Brainerd' post-marked letter said they were coming home, laden with blueberries and agates, brown from fishing and swimming in the lakes and full of tales of the Minnesota playground.

Then there would be the first family dinner and blueberry pie! An agate a piece. Or perhaps more! Colorful childhood memories! Not strange though that the picture has persisted as childhood impressions so often do. But in spite of the desire to see if fairy tales are ever true and if things can be as lovely as your dream, I was only thrilled, not disappointed when I saw Minnesota.

"Many years had passed, I refuse to even think how many, before I boarded the train bound for Brainerd. As I tell you what I found, you must remember always that Brainerd had meant to me. Blueberries! And before I forget it I must tell you that they are there—luscious, delicious—the kind I ate in my childhood, the kind that summer visitors gather in the woods and take home to those who are not fortunate enough to spend their vacations in the lake country.

"But I must return to Brainerd, for this is supposed to be a travel story and instead I am talking about blueberries and Pelican lake. As a matter of fact, Pelican lake is only one of 700 in Crow Wing county—the county in which Brainerd, Minnesota, is located, and Brainerd is the real gateway to all this lake country.

"Lake after lake, the white, wide highway skirts them, passes between them, winds around them until your supply of exclamations is exhausted and you can only sit quiet and marvel at their calm, blue loveliness or if the day happens to be a bit breezy, at the dancing white ruffles, like a foamy lace on a soft blue party gown.

"And so I saw Brainerd and felt the delight of a dream come true—so often it is only a shock to fully realize a dream. But I must start at the beginning and that will be down in Kansas City at the Union Station.

"Of course, there are highways from Kansas City to the Twin Cities in Minnesota and those highways are paved from the south line of Minnesota north almost to Brainerd. By this next fall the paving will be entirely completed and it will be just like riding down our best boulevard, from the time you reach Des Moines, Iowa—until you roll into Brainerd. And then there will be tarvia from Brainerd north, straight into the lake country. But one need not worry much about Minnesota roads at any time. For the most part they are sandy and kept in splendid condition so that rain only improves them and with your windshield wiper running, you are all set to travel in a shower or a deluge in Minnesota."

Mrs. Chalmers did not drive to Brainerd. She came by rail and calls attention to the fine service provided, in the Twin Cities attaching either to further train service or busses. She calls attention to the work of the Rock Island road in arranging special railroad service to the lakes of Minnesota.

In another section she mentions the Rock Island rates for shipping cars to Minnesota and quotes the rate to the Twin Cities, Brainerd, etc. In case of bad weather or a desire to be relieved of driving from Kansas City to Minnesota, cars may be so shipped.

"The tourist can find his supplies in Brainerd. He can get full information in Brainerd at the Information Bureau maintained by the Chamber of Commerce. He can find adequate and pleasant accommodations. He can start out on his vacation fully equipped and it matters little what road he takes—he will reach the lakes; Gull Lake, Pelican Lake, Bay Lake, South Long Lake, these and many more—all beautiful and inviting. No matter what the visitor wants—he can find it. He can camp or he can stay in a luxurious lodge or hotel; he can rest or he can dance. He can fish, boat or swim."

A map accompanies the article showing routes from Kansas City to Brainerd. It also mentions the trip one may take from Brainerd to Duluth and then shipping one's car on the lake steamer.

"No wonder the Indians loved Minnesota and called it home. And when after many years had passed, I will never tell how many, I packed my childhood dreams of Minnesota with me and went to Brainerd, I found it only a dream come true—for when I had thought of Brainerd I had thought of white beaches studded with agates, tall awkward birds and blueberries. And when I saw it, I found it the gateway to all this and more—a hub from which roads run in all directions to summer land. Yes, dreams come true!"

AN apple a day is said to keep the doctor away. Six apples a day, says Dr. John Harvey Kellogg, director of Battle Creek Sanitarium, would probably cause a good many doctors to abandon their profession, as the crop of patients would rapidly diminish following this daily half dozen of apples diet.

THE political candidate who thinks that the majority of voters in Minnesota are not intensely interested in the subject of economy in the administration of all offices from the local township unit to the Federal government has misjudged them and their bank accounts—*Princeton Union*.

HOME, DAD AND THE BOY

By FRANK H. CHELEY

The No-Account Dad

HE IS the Dad who has always had trouble making the grade. Of course, he always blames it on hard luck.

If he had only gotten a start in a different locality, and if they had let him take up engineering instead of law, or law instead of medicine, he would have shown the world.

He is the Dad who, according to facts and figures, lives on the dead level line of ordinary life. Dad who has never believed in himself sufficient to rise out of his rut. He wasted his time at school; never believed in a higher education and was forever in fear that whatever he was to undertake was destined to be a failure.

The psychologist calls it an "inferiority complex."

His neighbors call it laziness.

His boy calls it pure cussedness.

He is everything his boy shouldn't be in both attitude and action, and thrashes the lad for copying him.

"They never did that when I was a boy," is his basis for all judgments.

He needs to learn that there is very little chance of boys going wrong when Dads go right and take their sons with them.

Insects Delay Own Birth

Observations made by a British scientist has led to the belief that if the weather is bad the small egg moth can postpone its own birthday for days, months or years. The cocoon of this type is ordinarily due to open in February, but if the weather is inclement the birth is usually postponed sometimes for 12 months. Moths have been known to emerge successfully after being imprisoned 11 years.

Physicians in Association

The American Medical association is the national organization of the medical profession and is made up of the combined membership of the various state medical associations, which, in turn, are made up of local medical societies. Nearly 90,000 physicians are members of this association.

Origin of "Match"

The derivation of the term "match" as used in its present sense is obscure. It is probably from the Greek and Latin "macha," meaning a nozzle of a lamp. In 1337 we find reference in literature to matches, the name being applied to the wick of a candle or lamp. The earliest reference to matches in their present sense is found in 1530.

The Mule

Being told to write an essay on the mule, a small boy turned in to his teacher the following effort: "The mule is a harder bird than the guse or turkie. It has two legs to walk with, two more to kick with and wears its wings on the sides of its head. It is stubbornly backward about coming forward."

English Actor Finds Us a Nation of "Speedsters"

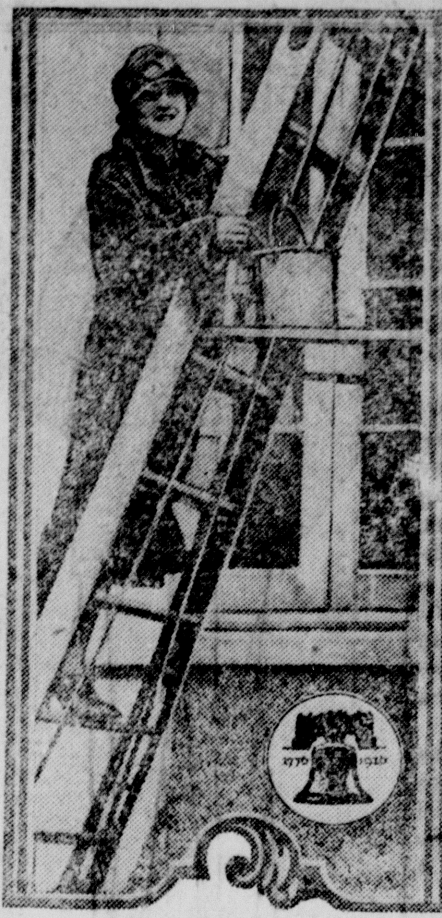

New York City—"I had to speed up like anything the minute I got to America," confides Jack Hulbert, most representative English comedian ever to visit New York.

Mr. Hulbert is here with his revue "By the Way," a production which has grown so popular in this country that a second edition is now playing.

"We all adore America," Mr. Hulbert continues plaintively. "Personally, I think New York is almost as marvellous a city as London but I plan to sleep for six weeks straight when I get home."

"What America wants is speed. It has its papers in headlines, its shows, and even its art. An American wants to get the gist of

A FAIR COLORIST

This young woman ascends a giddy ladder every day to put finishing touches to the "Rainbow City"—the Sesqui-Centennial International Exposition, opening in Philadelphia June 1 and continuing until December 1, to celebrate the 150th anniversary of the Declaration of American Independence. She is one of an army of young artists who are making the Sesqui a colorful success.

L. W. TYRELL

I wish to announce that I will be a candidate at the primary election to be held June 21st, 1926, for the office of County Commissioner for the fourth commissioners' district of Crow Wing county, Minn.

I have been a resident and tax-payer of the county for over 25 years and have always been much interested in county matters.

I am not at present employed by any one, nor drawing pay from any individual, company or corporation. There is nothing I know of to prevent me giving my entire time to the performance of the duties of the office, should you see fit to nominate and elect me to it.

Your support is asked for and will be greatly appreciated.

If you know the baker of the bread you buy, or depend on the name on the wrapper—you know the bread is wholesome, with the fresh flavor you like. If you don't know the baker or name on the wrapper, yet buy that bread, you take a chance. Bread costs only a few cents. You can afford that chance.

Yet suppose instead of bread, it's an expensive watch. Or suppose instead of something that must taste good to be good, it's a medicine that must be pure in a way you can't taste—or else do actual harm. You'd want to be sure about that watch. You'd have to be sure about that medicine.

There's one way to be sure. Buy only the widely advertised. Whatever is thrown open to unlimited public test is safe for you to use the way it is recommended for you to use. Names you can depend upon stand behind it. Thousands are finding those names dependable and their products strictly true. That's how they continue to be put on printed pages before you. DR. ROY SMITH'S SATURDAY NIGHT TALKS

By the REV. ROY L. SMITH, D. D.
Pastor Simpson M. E. Church, Minneapolis

A MAN IN THE KINGDOM

The Scriptures relate the story of an ancient king, Belshazzar, who saw the finger of doom writing upon his palace wall. In the midst of his terror the queen undertook to quiet his fears by saying, "Have no fear, neither let thy thoughts trouble thee, for there is a man in the kingdom in whom is the spirit of the holy gods."

The salvation of cities and nations is not to be found in their industrial development but in the manhood they produce. Many a town has become famous because it produced a man.

William Allen White has made the name of Emporia, Kansas, known throughout America. There are hundreds of other towns just as good as Emporia that have never been heard of outside their county. But William Allen White has made Emporia famous.

In Minnesota they refer to Fairmont as "Frank Day's Town." This veteran newspaper man has sung the praises of his home town for fifty years. There are other towns as beautiful and as prosperous but Frank Day has never admitted it, and in refusing to admit any equal he has made Fairmont famous.

For twenty-five years no trip to Chicago was ever considered complete if the visitor did not go to Central church to hear the great Frank W. Gunsaulus. In Philadelphia it was Russel H. Conwell; in Seattle it is Mark Matthews.

Down in Georgetown, Ohio, they do not show you the big tobacco sheds but the house where Ulysses S. Grant was born. In Vevay, Indiana, the biggest showplace is the house where the "Hoosier Schoolmaster" lived.

They manufacture stoves and ranges and do many other things in Hannibal, Missouri, but the town is famous because it provided the boyhood home of Mark Twain.

There are more than a million people in Detroit, Michigan, hundreds of factories and great wealth AND HENRY FORD.

If any town wants to be famous let it produce a man!

Allotted Territory

A "sphere of influence" may be described as an area wherein other powers undertake not to attempt to acquire influence or territory by treaty or annexation. Such British spheres exist in the Persian gulf and in Arabia.

A REAL HEROINE

Edith May Adams of Barrington, N. J., the first American School girl to be entered as a candidate for the American Youth Award. The American Youth and Teacher Award was established by the Board of Directors of the Sesqui-Centennial International Exposition in Philadelphia as a tribute to the youth and teachers of the nation. Miss Adams is a candidate for the Golden Eagle, the highest gift in the hands of the Girl Scouts. She was cited recently for exceptional bravery for remaining inside a blazing building helping physicians to give first aid treatment to injured firemen.

'SEA SERPENT' AT WHITE BEAR LAKE IS AN ALLIGATOR

St. Paul, June 5.—(UP)—The "sea serpent" that was reported to be lashing the waters of White Bear Lake in fury is an alligator.

But when this conclusion was reached today by citizens of the resort to which Twin Cities residents throng for summer swimming and recreation, they were just as mystified, because Minnesota and Florida are far apart.

But whatever the reason for the alligator's presence, volunteers in a fleet of rowboats skimmed the surface of the lake today in an effort to capture the menace to swimmers.

SENTENCED JUST 48 HOURS AFTER ROBBERY BANK

Milwaukee, Wis., June 5.—(UP)—Just 48 hours after they had robbed the Shorewood, Milwaukee suburb, of over \$1,000 Frank O'Mara, 45, and Herbert Cooper, 21, learned their fate in municipal court here today. Judge George Dshaughnessy after listening to their pleas of guilty sentenced O'Mara, whose home is at Cedar Rapids, Iowa, to from three to 30 years in the state prison and Cooper, whose home is at Spearfish, S. D., to from three to 25 years. The charges against the men were assault and robbery.

Support for Grapevines

The bureau of plant industry says that copper wire may be used to support grapevines. While the copper wire is more expensive at first, some believe that it is cheaper in the long run, as it endures longer than galvanized iron, which is used more universally. The galvanized iron wire needs to be removed in about three years. No. 10 wire is the size which is used for vineyard trellis.

A New-Type Six

—built to meet present-day performance standards

Here is a remarkable, new type of motor car, different in performance, comfort, and ease of driving from anything you have ever known before.

It is a completely new departure in automobile engineering... designed to meet present-day performance standards.

Simply in fairness to yourself you should study the modern standards of design, before buying any car today.

Today's modern car is designed for road speeds of from 40 to 55 miles per hour.

That's why you can run the new-type Overland Six at high speed hour after hour without excessive wear and tear on the motor. And why ordinary, bulky, old-fashioned cars quickly go to ruin when pressed above 45.

Today's modern car has a full pressure-feed oiling system.

That's why the Overland Six will run mile after mile at top speed, without the slightest friction. Each part operates smoothly in a bath of oil.

Modern engineering has made possible a lower gravity center. The Overland Six fairly hugs the ground. Without side-sway, slipping or wandering... it is always under perfect safety control.

The Overland Six is a completely engineered harmonious integral unit... designed to meet the new American performance standards. In fairness to yourself see this automobile.

U. S. AMATEUR CHAMPIONS FARING BADLY

REVIEW OF INVASION OF THEM IN ENGLAND

GLENNA COLLETT FAILS TO WIN WOMAN'S GOLF CHAMPION- SHIP

HELEN WILLS OFF COURTS BE- CAUSE OF OPERA- TION

By HENRY L. FARRELL
(United Press Staff Correspondent)

Paris, June 5.—American amateur champions thus far have fared unfortunately in their European invasions this summer.

Glenna Collett's opportunity to win the woman's golf championship failed to materialize when the tournament was called off because of the British general strike. Bobby Jones suffered a setback in the British amateur golf championship at Muirfield and now Helen Wills is kept from the tennis courts because of an operation for appendicitis.

Among Americans here and among many European friends the California girl has made since she came to the continent last winter, Helen's illness formed almost the sole topic of conversation today.

It was generally felt that no matter how successful the operation may have been, Miss Wills will be forced to withdraw from the play at Forest Hills late in the summer, as well as from the tournaments here and at Wimbledon. If this were true, her string of consecutive national championships would be broken.

The title holder's doctors have encouraged her, saying that she might be able to play again in six weeks or so, but such hopes are not to be counted on.

Mary K. Browne, captain of the American women players, sent word to Helen that her entry had not been withdrawn from the Wimbledon tournament, starting June 21, but she expressed the private opinion that Helen would not play again this summer.

Withdrawal of the champion forces the reorganization of the entire Wimbledon team and the new arrangement is uncertain because entries closed last night at midnight.

With Helen out of the singles, doubles and mixed doubles, Miss Browne asked British officials to permit revision of the entries. Mrs. Molla Mallory, former champion, will be asked to join the American team in Miss Wills' place.

Miss Browne and Elizabeth Ryan are now the only Americans left in the present international hard courts championships here and they together with Mrs. Kitty McKane Godfree of England and Mme. K. Boumer of Holland are the only ones conceded a chance to dispute Suzanne Lenglen's retention of the championship.

HELEN WILLS OPERATED ON FOR APPENDICITIS

Neuilly, France, June 5.—(UP)—Helen Wills, American woman tennis champion, is "doing splendidly" after an operation for appendicitis and if her improvement continues she can leave the hospital in 10 days and play tennis within a month and a half.

This was the announcement today of Dr. Thierry De Martel, Miss Wills' surgeon.

After her first good cry when she learned that her tennis would be interrupted, Helen recovered her traditional calm. She enjoyed an excellent night's sleep, waking up only at 8 a. m.

"When will I be able to return to the courts?" was the first question she asked the doctor. Other matters did not seem to interest her. In spite of the optimistic prediction of Dr. De Martel, Miss Wills must miss the all comers tournament at Wimbledon as well as the rest of the hard court championships at Paris.

"Miss Wills has a wonderful constitution and is reacting most favorably to the operation," Dr. De Martel told the United Press this morning. "She is not suffering, at present she is allowed to have only bouillon but her complete recovery will be most rapid."

BAD ARM HINDERS COMBS' THROWING

Has Everything Else in Way of Greatness.

American league base runners have discovered the same weakness in the throwing apparatus of Earl Combs, the New York American outfielder, that American association runners took advantage of when the former Kentucky school teacher was playing for the Louisville Colonels.

Combs, a great fly shagger, a great batter, fast of legs and a good slider, soon showed in the association that he couldn't throw. He was slow in getting his throw away, and the ball lacked steam and the necessary carry with a zipping bound at the finish. Base runners soon were taking an extra base on hits to Combs.

That is what they are doing in the American league. Combs is playing in one of the most difficult fields of

Earl Combs.

any big show ball park. The shadows of the triple deck grand stand of Yankee field play no part in making the center suburb easy to patrol, and with the lively ball of present-day baseball outfielders are compelled to play so far back, that Combs, with not a strong arm, has little chance to cut off base runners.

With a man on first and a hit to center field the base runner never slacks his speed at second. He just keeps on his way and seldom does Combs nail his man at the far base.

Even with that weakness and also a weakness in the handling of ground balls the former Louisville has won himself a home in New York. He can hit, run bases with rare speed and go far for fly balls.

DORT COLLINS LOOMS UP AS A REPEATER

COLORADO WAS VICTOR IN LAST YEAR'S NATIONAL INTER- SCHOLASTIC TRACK MEET

SCORED 18 POINTS IN THE FIELD EVENTS HELD YES- TERDAY

By BERT M. DENBY
(United Press Staff Correspondent)

Soldiers' Field, Chicago, June 5.—Dort Collins, Col., victor in last year's national interscholastic track and field meet, loomed as possible repeater today after having scored 18 points in the field events of the national interscholastic run-off yesterday.

One man, Dannie Beattie, is responsible for the Colorado team's lead. He gained 11 of his team's points by taking first place in the discus, third in the shot put and third in the hammer throw. He also qualified in the preliminaries for the high hurdles.

One world's record for prep schools has already fallen in the meet. Douglas Graydon, Little Rock, Ark., hurled the javelin 199 feet 5 inches to win an easy victory in this event.

Mooseheart high school, Mooseheart, Ill., was expected to give plenty of trouble in the academy track events today. This team has one man who is capable of winning the dashes and who, if he is right today, should score several points. He is Albert Francisco, who will be remembered for his tying of the world's indoor record in the 60-yard dash last winter, when he beat Loren Murchison by three steps in the preliminaries and then ran third to Chet Bowman and Cyril Coaffee, two of the best in the finals. He can step the 100 in 10 flat and the 220 event in time that approaches the record.

Hobby, Lake Forest, set a new academy record in the 12 pound shot put.

Athletes representing practically every state in the Union are here for the meet.

SUZANNE LENGLEN SORRY OVER PLIGHT OF HELEN WILLS

Paris, June 5.—(UP)—"I am absolutely overcome and terribly sorry," Suzanne Lenglen told the United Press when she heard that her tennis rival, Helen Wills, had been forced to undergo an operation which put her out of the running for international honors this year.

"I had not dreamed that Helen was so ill," she continued. "I intend to go to the American hospital as soon as she can receive callers. It's terribly hard luck for her."

Watching the Scoreboard

Yesterday's Hero—Dazzy Vance, Brooklyn pitcher, who returned to form and hurled his first victory of the season, beating the Giants 10 to 1.

Lee Meadows pitched his seventh consecutive victory, the Pirates winning from the Cubs 5 to 1.

Although gathering only five hits while their opponents were getting 10, Cleveland defeated Detroit, 4 to 3.

The Braves made it two straight from Cincinnati, using 15 hits to score an 8 to 5 victory.

While Zachary was shutting out the White Sox the Browns employed their four hits advantageously and won 3 to 0.

Although outhit the Brewers bunched hits and beat the Saints 5 to 3.

The Hens took the lead at the start and were never headed, outslugging the Colonels, 8 to 7.

Bunching their hits the Indians copped from the Senators, 9 to 4, making a clean sweep of the series.

Scoring four runs in the ninth the Blues defeated the Millers 7 to 5.

Hudkins Technical Kayo of Salvatore Los Angeles—Ace Hudkins, Nebraska terror, won a technical kayo over Phil Salvatore in the eighth round.

Ellis to Captain Carthage Carthage, Ill.—Chester Ellis, Monroe, Wis., has been named to captain next year's track squad at Carthage college.

McGinnis Heads Wisconsin Team Madison, Wis.—Charles McGinnis, Kansas City, Mo., star track man, will captain next year's University of Wisconsin team.

N. E. BEATS B. A. C. TEAM BY 5 TO 3 SCORE

VAN WALK FANS ELEVEN IN FIVE INNINGS, ALLOWS ONE HIT

HOWARD GETS WALK AND 3 HITS FOR PERFECT DAY AT BAT

Games next week
Monday—Y. M. C. A. vs. N. E.
Tuesday—B. A. C. vs. Seals.
Thursday—Y. M. C. A. vs. B. A. C.
Friday—N. E. vs. Seals

The N. E. team went a notch higher in the standings of the city league by winning from the B. A. C. last night by a score of 5 to 3. Three hits plus a walk and an error in the first inning netted four runs, and the other run came in the fifth when Howard singled and came home on H. Swanson's double.

The losers scored their three runs in the second, off Ebinger. Uddenberg started out by walking, Stallman was also granted free passage to first, and Brick scored both with a well placed double. Neime doubled, scoring Brick and Fogelstrom singled, Neime being caught at the plate on his attempt to score.

Van Walk replaced Ebinger at the start of the third inning, and from then on held the B. A. C.'s helpless, whiffing eleven men in the five innings and allowing but one hit, by Hegstad, the first man to face him. After that, no player reached first base.

Howard had a perfect day at bat, getting a walk in his first appearance, and hitting for safe blows in his other three times up. Kaufman hit safely twice, one of his drives being a double.

Nutting made several nice catches in center field. Neime made a nice play on Jarbo's hot grounder in the fourth.

PROFESSIONALS ARE CLEARLY OUTCLASSED

DECISIVE SCORE IS 13½ TO 1½ IN MATCH PLAY

8 OF 10 SINGLE MATCHES ARE ANNEXED BY THE VICTORS

Wentworth Club, Virginia Water, England, June 5.—(UP)—By the decisive score of 13½ to 1½, British professional golfers today won the Ryder Cup in match play against an American team.

Five foursome matches were won by the British stars yesterday and the victors annexed eight of 10 singles matches today, having one and losing the other.

The only Americans to score points were Emmett French, who halved his match with E. R. Whitcombe and Bill Mehlnhor, who defeated Archie Compston, 2 up.

In the last match of the day H. C. Jolly triumphed over Joseph Stein, 3 and 2.

ZACH WHEAT HAS KEEN BATTING EYE

Greatest Clouting Record in Past Three Years.

The opening of the 1926 baseball season found Zach Wheat of Brooklyn with no sign of diminishing batting skill after 17 brilliant campaigns in the National league as a Brooklyn outfielder.

Wheat has defied the toll of time with the greatest clouting record of his career in the last three seasons, averaging approximately .375 and leading the fight of the veterans to displace the leader, Rogers Hornsby of St. Louis. In 1923 he was second, with .375; in 1924 third, with the same mark, and last year he closed at .350, once more in third place.

Zach developed into one of the National league's greatest batters after he joined the Robins in 1909. He had an average of only .245 as a member

Zach Wheat.

of the Mobile club, in the Southern association. In 24 games near the close of the major league race that year Wheat picked up an average of .304, but in 1910 and 1911 he slipped back below the .290 mark.

A stretch of three seasons slightly above .300 followed, only to be interrupted with his poorest average in 1915, when he slumped to .258. Brooklyn fans began to fear an early ending to his career, but again he came back with three successive seasons above .300, the race of 1918 bringing his best figure, .385, up to that point.

After hitting .297 in 1919, Wheat began the greatest stretch of batting in his long record, hitting successfully for averages of .323, .320, .335, .375, .375 and .350.

Born 37 years ago at Hamilton, Mo., Wheat has for 17 summers played left field for Brooklyn.

Salesmanship Plus

At the motor show the salesman was endeavoring to interest a girl in a smart little two-seater on the stand. "Has it got every modern improvement?" she inquired. "Everything, madam," he responded gallantly; "the only thing it lacks is a beautiful owner." He sold it.—Youth's Companion.

Heads You Win!

Heads have always won the best in Straw at our hat cases—but the best this summer means something so much better than anything produced in the past that it is like comparing a kiss in the movies to the real thing. The Straws are of the same quality—but the styles are different.

You see yourself as you would like to have others see you—and they do.

Priced so that the straw hat you bought in May can be sat on by accident or—on purpose.

LOUIS J. RING INDICTED FOR SLAYING WIFE

SEARCH FOR MISSING BUSINESS MAN IS RE- DOUBLED

NORTHWEST MOUNTED POLICE OF CANADA PICK UP FRESH SCENT

Minneapolis, June 5.—(UP)—With Louis P. Ring indicted for the murder of his wife, Bertha, by the Hennepin county grand jury, the search for the missing business man was redoubled today.

Across the plains of central Canada, troopers of the Canadian Royal northwest mounted police are trailing Ring, believed to be not far behind him, as the result of a fresh scent picked up by authorities indicating he was in Winnipeg several days ago.

"We have absolute evidence that Ring was in Winnipeg and are virtually certain where he has gone from there," Floyd B. Olson, county attorney, announced almost at the same time the indictment was reported.

Mrs. Ring's quarrels with her husband, her disappearance, the finding of her body in Lake Pepin, near Ellsworth, Wis.; the evidence that she had been killed by blows and the actions of her husband were related to the grand jury by 15 or 20 witnesses, including Mrs. Phillip Switzer, of Neenah, Wis., mother of Mrs. Ring.

"I hope they find Ring," Mrs. Switzer remarked as she sat awaiting her summons into the grand jury room. "I'm too old, or I'd go after him myself."

Bananas Prove Popular as Food for Training

Bananas have become popular as a training food with British football players. Professional trainers of athletes have come out in favor of the banana on account of the readiness with which it is digested and the fact that it contains a higher percentage of calories than most other fruits.

Football players want to avoid any risk of "stiffing" but during cold weather they want to be sure that whatever they eat will contain as many heat units as possible.

The trainers maintain that before a football match, for instance, when the players are pressed for time, or between periods of the game, when they are more or less exhausted, the banana is the most suitable food, especially as it carries a guarantee that until its natural germ-proof wrapper is peeled away it is free from contamination.

Several New Pilots in Western League Circuit

One-half of the clubs of the Western league are under new managers this year, Des Moines, Lincoln, St. Joseph and Oklahoma City. The pennant-winning demons at Des Moines have John (Shano) Collins, famous first baseman of the White Sox and Boston American clubs, to pilot them toward another title.

Fred Luderus, who brought Oklahoma City its only Western league pennant in 1923, returns to the club this year. The Lincoln club will be managed by E. H. (Dutch) Zwilling, former coach of the Kansas City American association team and ex-major leaguer. Joe Kelly will manage and play center field for the St. Joseph club. Kelly has been in the majors and later the Western league for years.

Manager Speaker Wants No Secret About Hurts

Manager Speaker does not intend his players shall keep things secret from him. In a recent practice game Chic Autry dropped a pop fly in front of the plate hit by Pat McNulty but recovered the ball in time to head off Pat as the latter had not run out his hit.

Pat's failure naturally caused the manager to become somewhat peevish, whereupon Pat explained that he had a slight charley horse. "Why didn't you tell me before the game?" asked Spoke, "and I would have excused you from playing. I would have much sooner stuck someone else in to play right field than have one of my vets fall to run out a hit."

UNCERTAINTY IN SPECULATIVE MIND

New York, June 5.—(UP)—Uncertainty in the speculative mind created by the mixed character of the business session caused considerable irregularity in the week end session of the New York Stock exchange. Issues representative of industries suffering from unfavorable conditions were heavily sold including the sugar shares and American Woolen, which was forced down to a price not seen since the early days of the war.

Industrial shares showing good earnings were also under pressure but

most of the selling seemed to be in the nature of attempts to take profits. Ralls gave a good account of themselves, with the Van Sweringen issues maintaining leadership. The market closed irregular.

BASEBALL SQUITS

Joe Hauser's wired kneecap seems to be holding up well.

Detroit has turned Catcher Tommy McCarthy over to the St. Paul club of the American association.

Fred Heck, all-around player from Winston-Salem, has signed with the Jacksonville club of the new Southeastern league.

Harry Courtney, veteran left-handed pitcher, who was with the Robins at Clearwater, received his unconditional release.

Jimmy Cooney, former St. Louis Cardinal International league last year, is reported to have quit the Asheville club of the South Atlantic league.

SI McDonald, manager of the Hartford team of the Eastern league, announces the release of three youngsters—Tourville, Loftus and Goodfield, all pitchers.

Harry O'Brien, one of the leading outfielders in the Texas league last season, and sold to the Philadelphia Americans for \$12,000 by the Dallas club, was released to Dallas.

At Richmond, Va., the other day, Commissioner Landis said to an interviewing newspaper man: "Please do not call me czar. I prefer to be a subject in the baseball world."

Eddie Hock, one of the stars of the Western league last year, has been released outright by the Pittsburgh Pirates to the Oklahoma City club, from which he was obtained last fall.

Rogers Hornsby of the Cardinals seems to have a promising pitcher in Hallahan. In an exhibition tilt with the White Sox the other day, the youngster went the full route, allowing but two safeties.

C. F. Smaha, '27, star-scoring forward, was elected captain of the 1927 basketball team at University of Nebraska. G. F. Branigan, '27, in the 159-pound class, was elected captain of the wrestling team.

THE VOICE OF THE LIBERTY BELL

This is one of the two new official posters of the Sesqui-Centennial International Exposition, opening in Philadelphia June 1 to celebrate 150 years of American Independence. The Exposition will continue to December 1. Dan Smith, the artist, has symbolized the epoch in history which the tolling of the Liberty Bell in Independence Hall, July 4, 1776, marked and has depicted the growth of the United States from the original thirteen states, represented by the thirteen stars which emerge from the mouth of the Liberty Bell.

Roman Army Officers

A centurion was the captain or commander of a subdivision of a Roman legion. The legion contained 6,000 men besides auxiliary cavalry. The legion was made up of centuries, bodies of 100 men each, and at the head of the centuries were the centurions.

Earthquake Tremors

More than 100,000 earthquake shocks have been recorded all over the world during the last 50 years, according to statistics published in Rome. Most of these were only short tremors. Italy experienced the largest number of shocks, about 25,000, while Japan had only slightly less.
